

LEAP INTO SUMMER

LEAP Into Summer with Eaton Academy's LEAP Program! High school students and young adults with special needs will have the opportunity to develop onsite work skills with business partners like REI, Homegoods, and Longhorn Steakhouse. They'll have fun developing their culinary arts in the on-campus cooking class. Participants also join friends in afternoon classes to learn critical thinking, social skill building, personal fitness, hygiene, and wellness. In addition to the general LEAP Program day, we enjoy various social and educational outings.
